FROM THE DESK OF THE PRINCIPAL

The depiction of Florence Nightingale carrying a torch, symbolizes a union of dedicated nursing care, with the expansion of the horizons in healthcare, through research and innovative technologies, for the purpose of ensuring proper and systematic training. This in mind the Trust of this College commissioned the Labpur Nursing Institution in the year 2021. Our college is recognized by Government of West Bengal, and Affiliated to West Bengal Nursing Council.

The current scenario in the local, national and international level is of intense competition with equal opportunity to all. The world has advanced phenomenally in the past decade than ever before. Education which has always played an important role in the human life has gained a lot of importance in the present times because it is not only what you have but the knowledge, skills and attitude which determines an individual's success in today's World.

Labpur Nursing Institution believes in creating leaders and practitioners for tomorrow as well as good citizens for an emerging global world. A green campus and excellent facilities provide an appropriate environment for higher education, training, co-curricular activities and coexistence with nature. We are all aware, with the changing scenario of Global Healthcare delivery, the Indian Nursing Council along with the state councils and Government of India is phasing out the General Nursing and Midwifery (GNM) course. In this perspective Labpur Nursing Institution is committed to continue Nursing education through a Labpur Nursing Institution Nursing for General Nursing and Midwifery (GNM) course with 60 seats for 3 years. Labpur Nursing Institution vision is to provide the best of nursing education that combines continuous quality improvement, latest technology and cost effectiveness within a governmental framework of higher education. In order to provide quality care to patients and ensure utmost Patient safety continuous assessment is performed to improve student performance while rendering compassionate patient care, as per the standards adopted internationally.

FROM THE DESK OF THE DIRECTOR

It gives me immense pleasure to welcome you to Labpur Nursing Institution, established in the year 2021. Labpur Nursing Institution is offering three years General Nursing and Midwifery (GNM) Course with 60 students per session having its affiliation to the West Bengal Nursing Council. We are in the Service Mission along with the dedicated team of faculty & staff, students staying in the school campus able to develop rich learning experiences not only in nursing education and practice but also equally in social, moral and cultural dimensions with all sorts of Yoga and pranayamas.

Nurses are the backbone of every health system. Every adversity is an opportunity to improve and what COVID-19 has brought into sharp focus is the need for every nation to invest in nurses and midwives as part of the commitment to achieve universal health coverage.

We believe that students during their 3 years training period would develop professionalism and team leader of our fast-developing health care industry.

With Regards

Jayanta Roy

LABPUR NURSING INSTITUTION

Recognized by Government of West Bengal & Affiliated to West Bengal Nursing Council.

INTRODUCTION

This social venture of setting up a Nursing School in Labpur has been initiated by College Trust under its Social Responsibility initiatives; which amongst others, focuses on skill development and generating livelihood opportunities for the local people and to meet the increasing demand of qualified nurses all over the country.

The Trust of this College is a well-known service organization with its mission primarily based on the principles of Swami Vivekananda who preached “man making, nation building” as the basic objective. Swami Vivekananda stressed on serving humanity as he could visualize that “There are lots of poor people sunk in degradation and misery who need to be served with zeal and enthusiasm and needful action to be taken to help them in alleviating their problems and making their life a better one”.

VISION

We are a state-of-art institute of national repute, committed to achieve excellence in nursing education by developing skilled and dedicated nursing professionals, contributing to health care needs and socio-economic uplift of the region.

MISSION

1. Create state-of-art Nursing Institute of National repute with competent faculty.
2. Develop skilled and dedicated Nursing professionals with high quality education
3. Focus on continuous improvement in curriculum and professional updation.
4. Adopt best-in-class practices with good governance and ethical standards.
5. Contribute towards socio-economic development of the region with 100% placement assistance.

LABPUR NURSING INSTITUTION

Recognized by Government of West Bengal & Affiliated to West Bengal Nursing Council.

PHILOSOPHY

OF LABPUR NURSING INSTITUTION

1. We believe nurses, as qualified professionals, are an integral & necessary part of a collaborative health care team, promoting health, preventing diseases and providing therapeutic care.

2. We believe that GNM program will train the student nurses to render quality nursing care which is scientifically sound and evidence based, in the health care practice at the institutional level and community outreach programme.

3. We believe that nursing education will provide opportunities for nurses to develop to their fullest potential as professional nurses and citizens so that they may help their people and society to achieve the physical, emotional, social, moral, intellectual and spiritual well- being that we desire for all. The dynamic processes of planning, providing and evaluating nursing care are necessary to meet the unique needs of individuals, their families and the communities.

4. Labpur Nursing Institution has been set up to inculcate human values, to provide contemporary knowledge and impart skills, thereby creating employment opportunities to young ladies in the profession of nursing.

LABPUR NURSING INSTITUTION

Recognized by Government of West Bengal & Affiliated to West Bengal Nursing Council.

Nursing education is the professional education for the preparation of nurses to enable them to render professional nursing care to people of all ages, in all phases of health and illness, in a variety of settings. As students develop their education and understanding of general healthcare over the years, they can move on to more specified areas of healthcare such as child care, orthopedics, emergency nursing, intensive care and midwifery among other healthcare fields. GNM may work in a variety of healthcare settings within both the public and private healthcare sectors and may operate in hospitals, nursing homes, hospices, the armed forces, community centers, healthcare facilities and college, universities among other healthcare settings.

In addition to bachelor programme, GNM may also choose to continue their education in a post graduate programme where they can earn their masters degree and find work in more prominent position such as management, administration and leadership roles within their profession or they can choose to work in areas related to education, research and development.

The Course is Affiliated to the **West Bengal Nursing Council**

The aims of Diploma in General Nursing and Midwifery program are:

1. To prepare nurses with a sound educational programme in nursing to enable them to function as efficient members of the health team, beginning with the competencies for first level positions in all kinds of healthcare settings.
2. To help nurses develop an ability to co-operate and co-ordinate with members of the health care team in the prevention of disease, promotion of health and rehabilitation of the sick.
3. To help nurses in their personal and professional development, so that they are able to make maximum contribution to the society as useful and productive individuals, citizens as well as efficient nurses.
4. To serve as a base for further professional education and specialization in nursing.
5. To prepare nurses to keep pace with latest professional and technological developments and use these for providing nursing care service.
